

Aayush Bhatt

8780347711 | abhatt2811@gmail.com

Objective

Results-driven Node.js Developer with 1.3 years of experience specializing in backend development. Expert in building scalable server-side applications using Node.js and Express, with proven success in integrating payment solutions like Stripe, Square, and PayPal. Skilled in cloud deployment using PM2, DigitalOcean, and AWS. Proficient in React/Next.js for front-end development, but with a strong focus on backend solutions. Committed to delivering robust cloud-native applications by leveraging modern JavaScript frameworks and API integration skills.

Experience

- IIH Global** September 2024 - Current
Junior Full-stack Developer
 - Developed and maintained full-stack web applications using Node.js, Express.js, MongoDB, React.js, and Next.js
 - Integrated AI-based features into web applications, such as Create PPT based on Prompt, Identify Stock will Go up or Down of a Company based on its Quarter and Annual Report
 - Managed deployment of production-ready applications using PM2, and cloud infrastructure like DigitalOcean and AWS S3, including storage buckets and basic server configuration
 - Built and consumed RESTful APIs for dynamic data handling and third-party integrations
 - Collaborated on real-time features such as live auction updates using WebSockets
 - Designed reusable frontend components with Next.js, optimized for SEO and server-side rendering (SSR)
 - Handled version control and team collaboration using Git and GitHub
 - Applied best practices in code structure, database modeling, and API security
 - Participated in client discussions, requirements gathering, and agile sprint planning
 - Developed and maintained responsive web applications using HTML, CSS, and JavaScript.
 - Collaborated with cross-functional teams to design and implement user-friendly interfaces.
 - Integrated RESTful APIs for seamless data exchange between front-end and back-end systems.
 - Enhanced user experience by designing and implementing responsive web applications using HTML, CSS, and JavaScript.
 - Optimized website performance with efficient coding practices and regular performance audits.
 - Developed and maintained responsive web applications using HTML, CSS, and JavaScript frameworks.

- Maxgen Technology** January 2024 - June 2024
Node Intern

During my time period as a Node.js intern at Maxgen Technologies, I had the opportunity to dive deep into modern web development practices and enhance my skills significantly. Working on multiple projects allowed me to gain practical experience and apply theoretical knowledge to real-world scenarios.

Skills

- Programming & Web Technologies: JavaScript (ES6+), HTML5, CSS3, RESTful APIs, JSON
- Frontend development with React.js and Next.js
- Backend development with Node.js and Express.js
- Deployment: PM2, DigitalOcean, AWS S3, Linux Server Management, Git
- Tools & Workflow: Git & GitHub, Postman, Figma
- Skilled in building applications using Node.js
- Responsive design
- Websockets communication
- Quality assurance
